

The second InPEQ meeting within the seventh Balkan Print Forum will take place on October 19, 2012 in Sofia, Bulgaria.

The main target of the Initiative for Printers' Education and Qualification InPEQ is to establish a professional communication network of the print media schools and universities of the Balkan countries, Germany, Russia, Ukraine and other European countries.

The cooperation between print media schools, universities and institutions of the Balkan Print Forum member countries and partners will effect positively the prospects for printers education and qualification .

Joint WPCF - PrintCity Environmental Conference at drupa 2012

May 10th 2012 from 9:00-15:00
at drupa Congress Centre, Room 28

connection of competence

The World Print & Communication Forum (WPCF) and the PrintCity Alliance are jointly organising an International Environmental Conference during the 2012 drupa exhibition in Düsseldorf. This initiative underlines that effective responses on these issues requires creative cooperation across the industry process chain.

The Lean & Green International Environmental Conference will focus on the duality of mutual economic and environmental benefits (Lean & Green) as an industry strategy. Specialised speakers from both within and external to the printing and paper industry will provide attendees with information and incentives to take this holistic business approach.

The conference language will be English.

The conference programme will be organised in three sessions: *Environmental Footprint, Sustainability Challenge, Labels and Certifications*.

The conference will be on Thursday, May 10, 2012, from 09:00-15:00 in the drupa Congress Centre, Room 28.

The conference is a not-for-profit event that will only cost 175 € plus German VAT (19%) to cover event expenses and refreshments (including a light lunch). Places are limited.

For more information and for registration please visit:

44th Annual Conference of the IC

Óbuda University, Rejtő Sándor Faculty of Light Industry and Environmental Engineering is proud to be the host of the forthcoming 44th annual Conference of the International Circle of Educational Institutes for Graphic Arts Technology and Management (IC) from 19 June 2012 to 22 June 2012, on the 40th anniversary of the Faculty.

Founded by a few mid-European universities for printing technology in Lausanne, Switzerland in 1957, the IC is an informal network of about one hundred members from all over the world. Since fall 2006, Prof. Dr. Wolfgang Faigle, Prorector of the Stuttgart Media University (HdM) acts as president of the IC. You can find more information about the IC network at the International Circle's website: http://www.hdm-stuttgart.de/international_circle/.

Authors from IC member organizations, as well as from other universities, research institutes and industry are invited to submit results of their research for presentation at the 44th annual IC conference. The scope of the conference encompasses areas such as scientific or educational topics from the fields of Graphic Arts Technology, Management and Communication, in a wider sense. Papers **submitted not later than 23 April 2012** will be selected on the basis of submitted abstracts of 200 to 300 words, including 3-5 keywords.

For more information please visit:
http://rkk.uni-obuda.hu/ic_2012/

Sixth scientific and professional symposium GRID 2012

November 15–16, Novi Sad, Serbia

Traditionally the professional and scientific GRID symposium aims to promote the exchange of experience and knowledge among scientific workers, researchers, experts and professionals who work in the graphic media and printing industry.

© GRID

The first symposium of Graphic Engineering and Design took place in 2002. It is organized every two years as an international symposium, with the objective of connecting researchers of the industry and institutions related to the field of graphic engineering and design and presenting of research results to the scientific and professional community.

© GRID

This year the 6th GRID symposium will include presentation of interesting new research results, practical workshops, and presentations from respected graphic industry companies.

Researchers and scientists from academic institutions, consultants, professionals in the field of graphic industry and all interested in the subject are invited to submit their papers for GRID 2012.

The Symposium will take place in the conference hall at the Faculty of Technical Sciences, University of Novi Sad, Serbia.

Additional information about the symposium is available on the symposium web page:
